CANADIAN NEWS.

Toronto, Dec. 24.—Mr. and Mrs. M. G. Duncan, of Gladstone, Man., came here last night and put up at the Albion hotel. They were on their way to Mount Forest to spend Christmas there with relatives. They went to their room about 8 o'clock. At 4 this morning Mr. Duncan woke and smelled gas and went to open the window but was overpowered. He managed to open the door and shout and help came. His wife was lying insensible and it took several hours' hard work to bring her to. Both are now well and have resumed their journey.

Vancouver, Dec. 24.—Vancouver is terrorized by a gang of highwaymen who are operating here in broad daylight and defying the police. Some forty men have been held up at the point of the revolver during afternoons and evenings in the centre of the city by different members of the gang. Girls and women are also subject to all sorts of indignities while being robbed. At three o'clock yesterday afternoon, however, the boldest attempt yet was made. A man called at the house of R. C. Ferguson, Mrs. Ferguson came to the door, and at the point of a pistol was compelled to deliver up valuables. The police and detectives are ridiculed for incapacity.

Ottawa, Dec. 25.—The Trans-Canadian Railway company will apply to parliament at next session for a charter for building a railway from Winnipeg to York Factory on Hudson's Bay. The Alberta Railway & Coal company will apply at next session of parliament for a charter to build a road from Lethbridge, Alberta, to the boundary line, and also for building a branch to Macleod.

The attention of the government has been called to the fact that the two-cent post card used in communicating with foreign countries contravenes the regulations of the postal union. One of the infractions complained of was the border on the address side of another card, and the addition of the words, British America Bank Note company. A new plate has therefore been prepared to replace the present one. It is of a neat design, with the objectionable parts removed. The cost of the stamp and print have been changed from green to reddish red, similar to the three-cent stamp. As soon as the present supply of post cards is exhausted the new ones will be issued.

ALEXANDER.

A Tent of the K.O.T.M. was organized here by Deputy Supreme Commander Hollingsworth on Dec. 21st, with a membership of twenty-one. The members of the Tent are very enthusiastic and intend doing everything in their power to make it a success. The following officers were installed:

Past Sir K. C.—J. Blair,
" K. C.—H. Wood,
" K. L. C.—R. Cameron,
" K. F. & R. K.—A. F. Elliott,
" K. C.—Geo. Broatch,
" K. S.—A. Campbell,
" K. M. at A.—A. M. Nab,
" K. 1st M. of T.—Wm. Broatch,
" K. 2nd M. of T.—B. Dufar,
" K. S.—W. Hubble,
" K. P.—J. Leitch.

The Presbyterians and Methodists had a highly successful Xmas entertainment on Xmas Eve. Mr. White's Hall was crowded to the doors and standing room was at a premium. A lengthy and appropriate programme was rendered after which Santa Claus very suddenly appeared on the scene down a fire place which will indelibly imprint a remembrance of Santa Claus on the minds of the children on the platform for the rest of their lives. A large number of handsome and useful presents were distributed off the two trees. The boys and girls then had their pockets filled with candies, etc., and went home feeling that Xmas trees are a great bonanza for the youngsters.

The World Over.

Buffalo, Dec. 26.—By hundreds and by every road and pike entering Buffalo the unemployed are swarming into the city in search for work. Captains of the police precincts report the house sometimes feeds dozens of hungry men every night, not professional tramps, but honest laborers looking for work. It is estimated two men were looking for every job and the idea that enlargement of the canal to give employment to many men would welcome a blessing to the city, was dispelled when it was computed how many idle men must be maintained at the alm house or penitentiary. The latter institution is over crowded. Morning papers show that 4x6 cells are crowded with two or three tenants. Most of the prisoners are short term men the great proportion being vagrants or men who were convicted of vagrancy on their own request to obtain shelter.

Ancaster, Pa., Dec. 26.—A. Henson, one of the members of the gang of thieves and outlaws, who reside in Welsh Mountains, the east end of this country, was shot last night by his step-brother, Jerry Green, also a noted criminal, member of the same gang. Henson kept a horse and harness in Green's stable. When he went or it last night he found Jerry had the breast strap and refused to give it up. A dispute followed, when Jerry ran into the house, returned with a shotgun, shoved the muzzle against Henson's breast and fired, killing him instantly.

Kansas City, Dec. 26.—The St. Louis and Chicago express on the Chicago and Alton railroad, which left here at 8:45 o'clock to-night, was held up by bandits at Blue Cut, just east of Independence, Mo., and less than fifteen miles from this city. The same train was held up at the same point less than two months ago. It is reported that the robbers cut the locomotive and express car from the train, which proceeded down the road. No further particulars of the robbery are known. A Sheriff's posse has left Indpendence for the scene of the hold-up, and a special train bearing officers is about to start out from Kansas City.

Minneapolis, Dec. 23.—Minneapolis to-night experienced the first hold-up of a street car since the operation of the Barrett robbing of several years ago, and for which they and the murderer of the driver were hanged. Three masked men entered a Bryan Mawr car at the end of the line about 8 o'clock and at the point of revolvers took \$12 from Conductor Quady. The motorman, by this time, had entered the car and one of the robbers covered him while the other went through him. His pockets yielded only one cent and this the robbers returned to him.

New York, Dec. 25.—The wife of Policeman Frank P. Ryan met a terrible fate to-day. She was about to place a turkey in the oven when her clothes caught fire from the range in her apartments. Thinking that she could save herself, without alarming the other tenants in the five-story double flat house, Mrs. Ryan rushed into a bedroom and wrapped a blanket about herself. Then the poor woman swooned to the floor of the bedroom. The fire had not been smothered by the blanket and while she lay unconscious she was slowly roasted to death.

Chatham, Mass., Dec. 25.—Christmas day brought ashore two bodies from the ill-fated schooner Calvin B. Orent, one was that of a man of dark complexion, dark hair, with the word "Swede" on his right arm. From the dress and general appearance the body is thought to be that of an officer.

The other body was of light complexion, sandy mustache and hair, and had the appearance of a seaman. Both bodies are in the care of the town authorities, who will hold them for identification.

RESTON.

Court Isaac Mossop and Miss Jessie Coutin were married last Wednesday, the 16th inst.

Owing to the continual prevalence of measles the trustees have decided not to reopen the school until after New Year's Day. Mr. Irwin left for Brandon on the 17th inst.

Merton & Co. have closed up their elevator until towards spring. This firm must have done much better by their elevator than they expected; they bought more or less wheat while doing business, and now have their elevator full. The Farmers' Elevator was built with the avowed intention of depriving them of any great benefit accruing from the monopoly granted them. It was certainly a success. Martin & Co.'s receipts having diminished perceptibly since then.

On Friday, the 18th, the Patrons of Industry met and elected their officers for the ensuing year. Pres. C. J. Stewart; Vice-Pres. Wm. Bullock; Secy-Treas., H. Hewitt; W. H. Evans was chosen delegate to attend the coming convention in Brandon.

The Orangemen held their first meeting on Reston on Wednesday, the 16th. Partly to refresh themselves during the long meeting, partly no doubt to celebrate the occasion, a substantial supper had been ordered for eleven o'clock, at the Jackson House, and was duly eaten.

It is strange no one with enterprise has been found to build a hall suitable for public meetings. At present the school house serves the purpose, but has always been an inconvenient and uncomfortable place. Religious and political meetings, concerts and socials, the assemblies of the different fraternal and benevolent socie-

ties, all take place there. A hall would soon pay its cost, but it should be made ample in size. If the Orangemen can see their way to build a hall larger than the one they have in view, so much the better; no loss can come from it, but rather profit.

The danger of long journeys in stormy weather at this time of year was brought to our notice again a few days ago. During the last blizzard, or on the Wednesday preceding it, three Frenchmen—Jean Veandon, Jean Bucher and Emile Keller—began their homeward journey to the French settlement. When near home they found themselves lost in the storm without food and shelter. They were found on Friday afternoon in or near a small shanty, all more or less frozen and exhausted in health. For three days and two nights they had fought the cold without food. Veandon and Bucher were taken to Brandon Hospital by a friend, Keller remaining at home, being the least frozen. Dr. Fleming, of Brandon, does not entertain much hope for the recovery of Veandon. Bucher will lose part of his feet.

DOWN TO DEATH.

Birmingham, Ala., Dec. 27.—Passenger train No. 49 was wrecked at Cahaba river bridge, 27 miles from here this morning, and 24 lives were lost. That number of bodies have been recovered from the wreck, and a further search may still further swell the list of the dead. The disaster was accomplished by wreckers, through removal of a rail on the middle of the span of the trestle.

This derailed the train and precipitated it into the river, 110 feet below. The survivors of the wreck are so few and so badly hurt that they are unable to give any detailed description of how it all happened. It is not known, and may never be ascertained, just how many passengers were on the train. Most of them were miners and residents of mining towns in this district who had round trip holiday tickets, and were returning to their homes along the line of the Birmingham mineral railroad.

Conductor Connell, who probably knew better than any body else as to how many passengers were on board, is dead. It is thought, however, that there were not exceeding from 25 to 30.

LATER.

The entire crew took fire rapidly and was burned to death while trying to save a several car load of coal. Two drivers and several others were also killed. The train was wrecked at the bridge on the Hixson road, and a passenger car of the Central Ry. Co., a carman who sold coal, was also killed. Coming nearer he saw two spans of the bridge broken out. Then he discovered the burning of the wreckage in the slow water below. He could bear the gross of the wreckage and climb, but, without waiting to see further, he rode his horse rapidly to Hixson, where the operator telegraphed to Birmingham and Birmingham for relief. Meanwhile a few country people gathered at the scene and realized what aid they could. Nine people were got out and others had been burned up in the wreckage. When the relief train from Birmingham arrived there was little need for the armfuls of medicines that had gone along. The wounded were quickly attended to and then sent to Birmingham for further attention.

Expert engineers say there is every indication that a rail was removed. The cross ties show marks of wheels. To add to this the fact that three men tried to wreck a Southern railway train near Henry El., fifteen miles east of here, a day or so ago by the means of a fire on the track, nearly and fully. The fire express left the engine, but the engineer managed by sheer human efforts to stop it before it ran down the track. This was regarded as a most remarkable escape. In this case three men were running from the place and a crowbar with which the spike had been withdrawn was found. The scenes of both accidents are in a wild mountainous country.

WAS HE ROBBED?

Residents of the north-end are some what excited over the rumor of a big robbery in their vicinity on Christmas day. Details are sadly lacking, but it appears that the victim was a traveling man stopping over for a few days while enroute to Ontario. He indulged copiously, it is said, on Christmas morning, and started on a "rare" all by himself. At noon he hired an express man at the depot to drive him about the city at six much an hour, preferring an open vehicle to an open cab. On Saturday morning the stranger is supposed to have waked up in a Main street hotel, and to have discovered his \$300 roll of bills missing. It is said he appeared at the express stand to-day and endeavored to identify the wagon he hired on Friday, but failed to do so. The names of the parties concerned cannot be learned, and the whole story has a "fishy" aspect. The police know nothing about it.—Free Press.

GRAIN AND MILLING.

The new flour mill at Deloraine, Man., will be completed early next month. It will have a capacity of 50 barrels per day. It is being erected by the Ontario Milling and Manufacturing Co.

T. T. W. Bready, who is out among the farmers a great deal as a traveling representative of the Winnipeg grain trade, says the farmers are in better shape this year than they have ever

been before in Manitoba and the wheat districts of Assinibina. Many of them, he says, have money to bank after paying off their debts, and altogether there is a great feeling of prosperity and happiness among them.

The Canadian Pacific railway wants a bonus of \$10,000 from the town of Owen Sound, Ont., for the erection of a 1,000,000 bushel grain elevator and a storage warehouse for 50,000 barrels of flour.

A sale of 25,000 bushels of No. 1 hard, Manitoba wheat, was made at Montreal on Dec. 16, at equal to 76c. a bushel. For William.

Oats declined just at Montreal on Dec. 18 to 25c. for No. 2 white.

S. S. ENTERTAINMENT.

One of the most successful Sunday School entertainments ever given in the city was given by St. Matthews in the city hall on Tuesday evening last. The programme was most exhaustive and varied to suit all nations. One of the principal features was the music discoursed by Hemeberg's orchestra who volunteered their services for the occasion. The singing of the boys' choir, recitations, readings and vocal and instrumental music followed; next a laughable pantomime by several of the young ladies. Presents by the classes to their teachers, Mrs. Buckle, Miss Quinn, Miss Hender son. On behalf of the St. Andrews Brotherhood and the Bible class Mr. Wales read a most fitting address to the Rev. Mr. Harding while Mr. Brydges presented him with a beautiful calfskin cap. Space prevents us from giving a full report, so we limit ourselves to prize winners at the Sunday School as below.
